LEAD Coaching

LEAD Coaching programs are tailored to fit your unique needs.

Your LEAD Coach will:

- Take a genuine interest in you, believe in you and commit to your growth.
- Help you discover your unique design: your gifts, passions, values, strengths and purpose.
- Help you put together a clear and compelling vision for your life, defining what success looks like personally, professionally and relationally.
- Collaborate with you in designing an Action Plan to get you where you want to go.
- Provide objective feedback, allowing you to test your thinking, opinions and conclusions.
- Help you overcome obstacles and encourage you at key moments of the journey.
- Hold you accountable to your commitments, making sure you do not confuse intent with action.
- Celebrate success with you.

"My LEAD Coaching experience was valuable for two reasons: My coach was an experienced, knowledgeable guide. And, the program took me very intentionally through several areas of life (both personal and professional) that made me articulate some things for myself that I would not have naturally done otherwise. I would recommend LEAD Coaching to anyone who knows there is 'more' and wants to move toward clarity."

Stephen Humber, MB Mission regional mobilizer

You will:

- Experience deeper meaning, significance and purpose.
- Become a more effective leader.
- Live with increased confidence and clarity.
- Enjoy deeper, more satisfying relationships.
- Experience greater efficiency and production.
- Live your full potential.
- Experience freedom, courage and joy.
- Make a greater impact.
